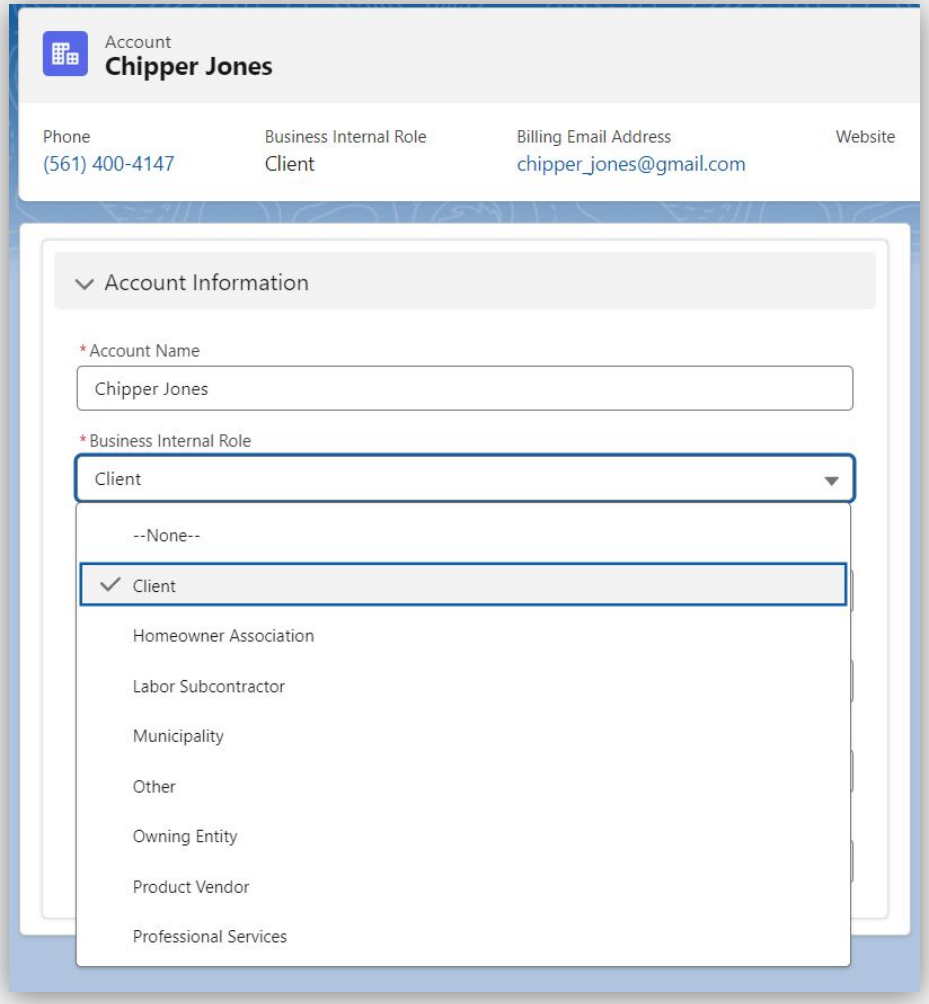
Create Accounts

Accounts are categorized into the following **(8) Business Internal Roles**:

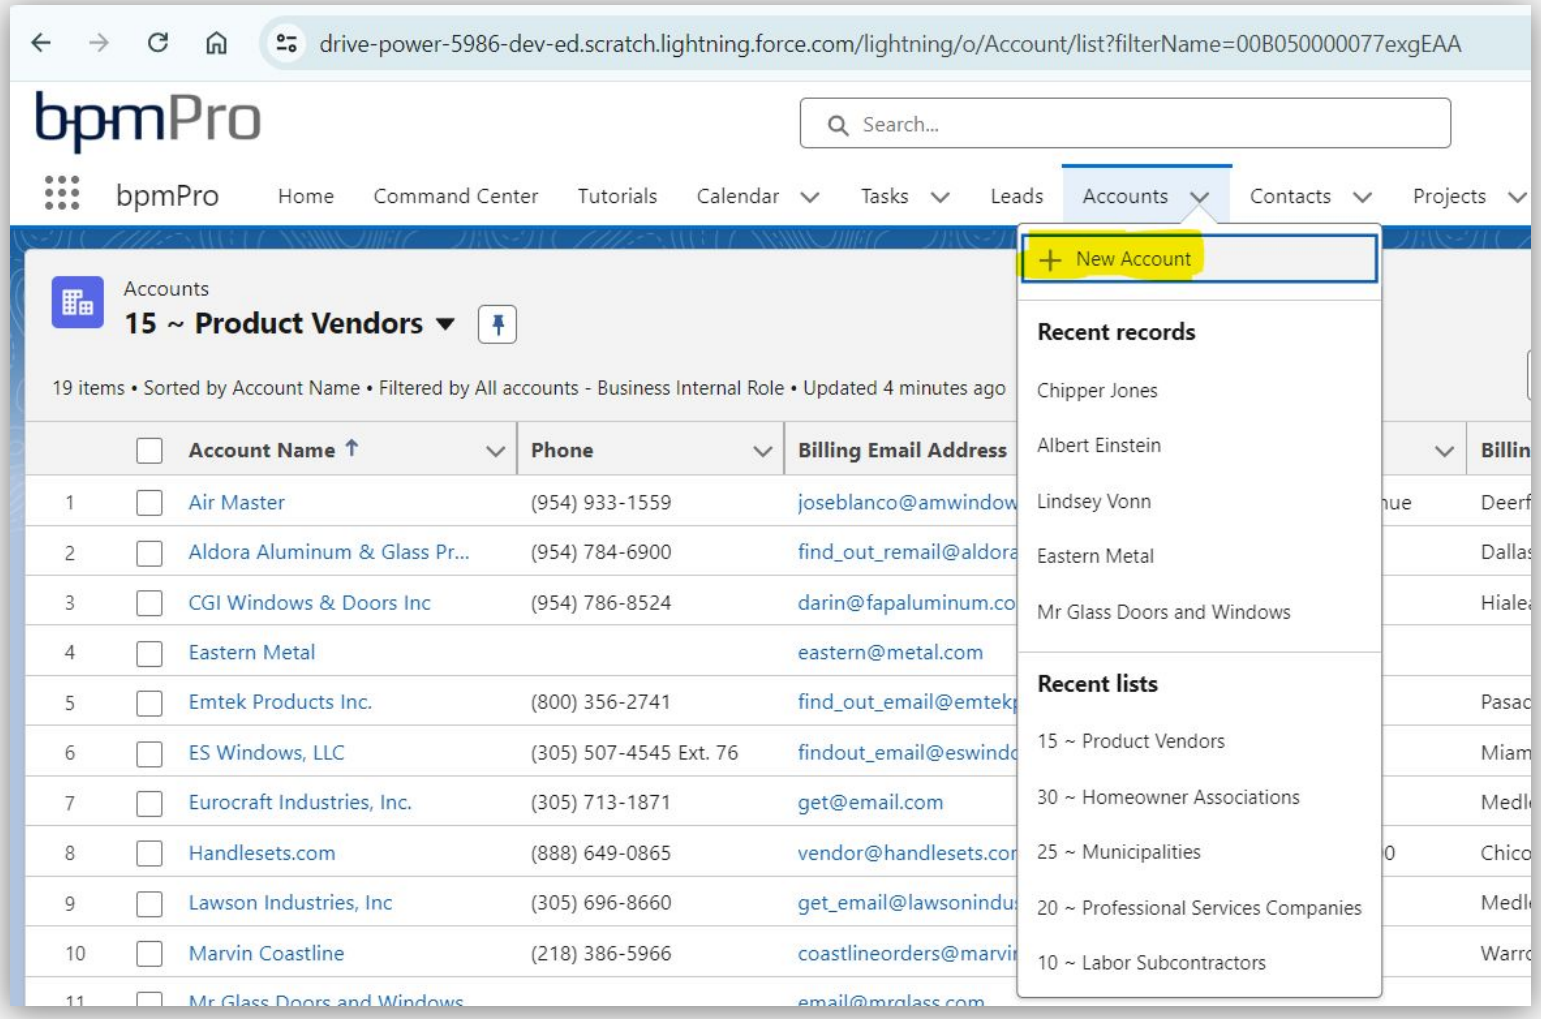
1. Client
2. Homeowner Association
3. Labor Subcontractor
4. Municipality
5. Other
6. Owning Company [Window Dealer]
7. Product Vendor
8. Professional Services



bpmPro

Create Accounts

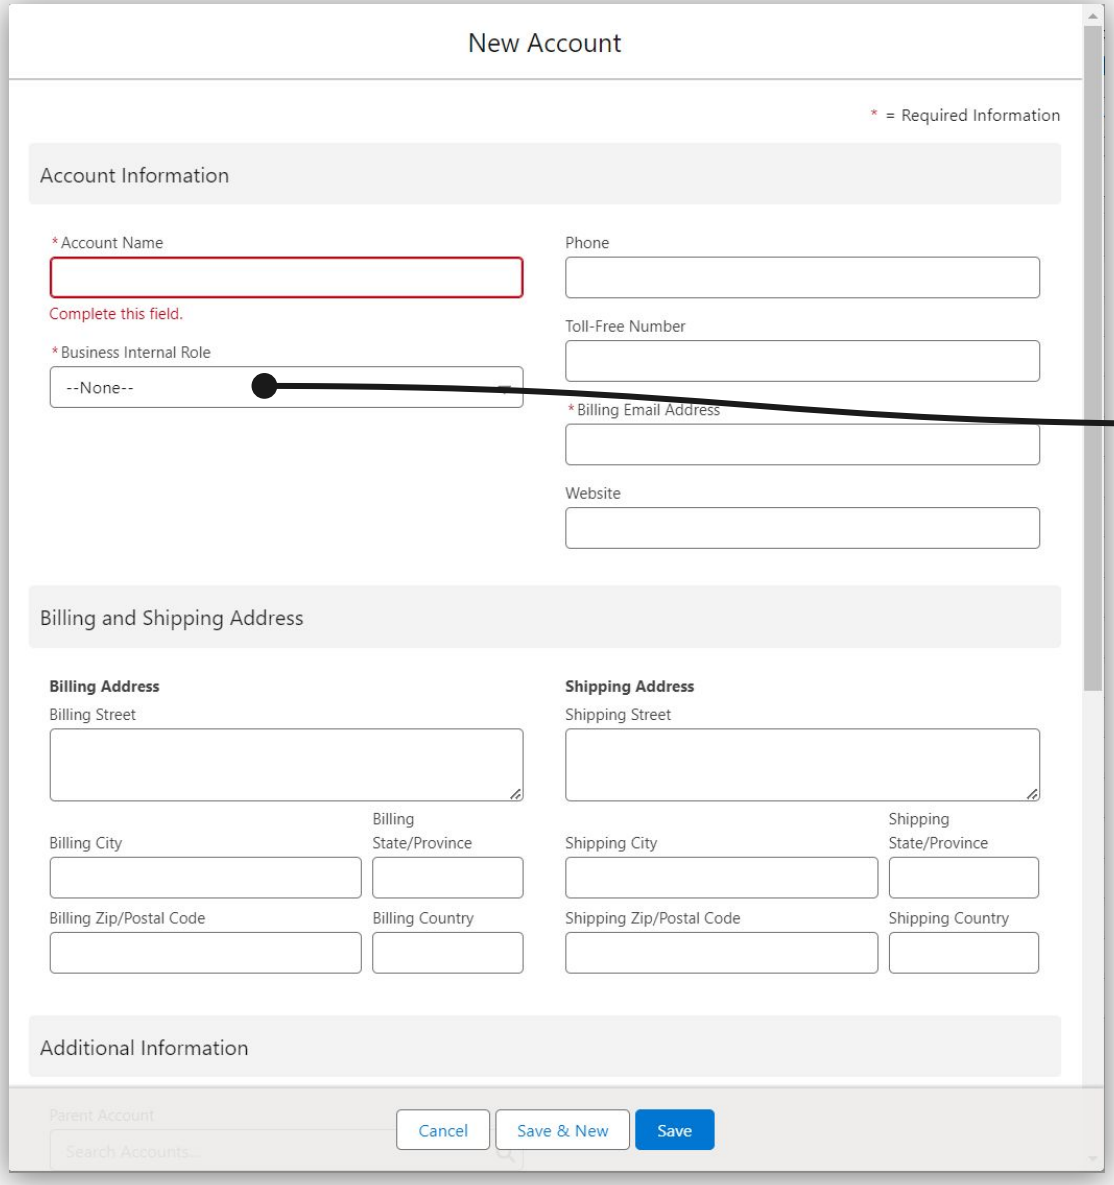
From Home Page, click on the **Accounts** Tab located across the top toolbar, and click on **New Account**.



bpmPro

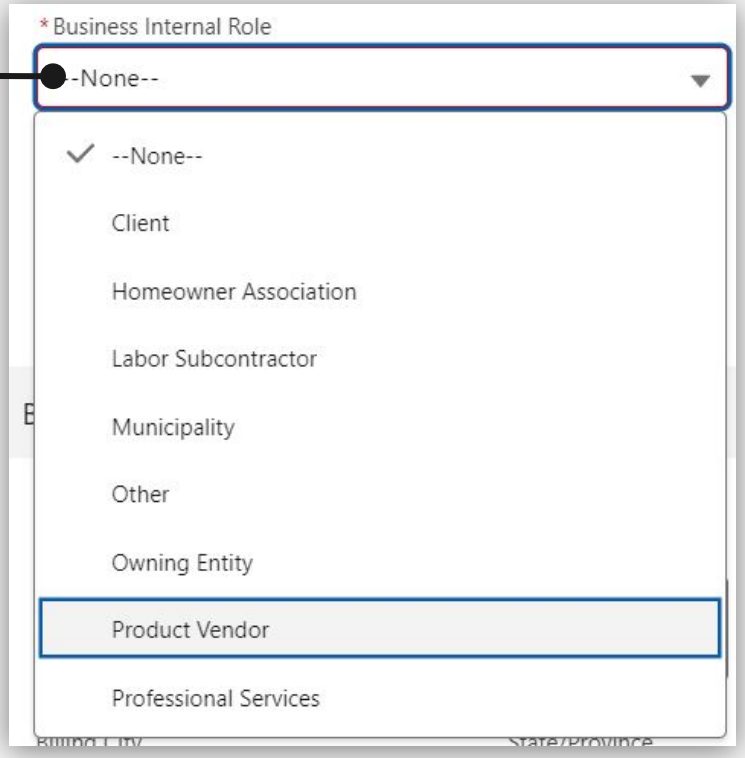
Create a Product Vendor Account

Fill out as much information as possible.



Account Name, Business Internal Role and **Billing Email Address** are required fields.

For this example, select **Product Vendor** as the business internal role.

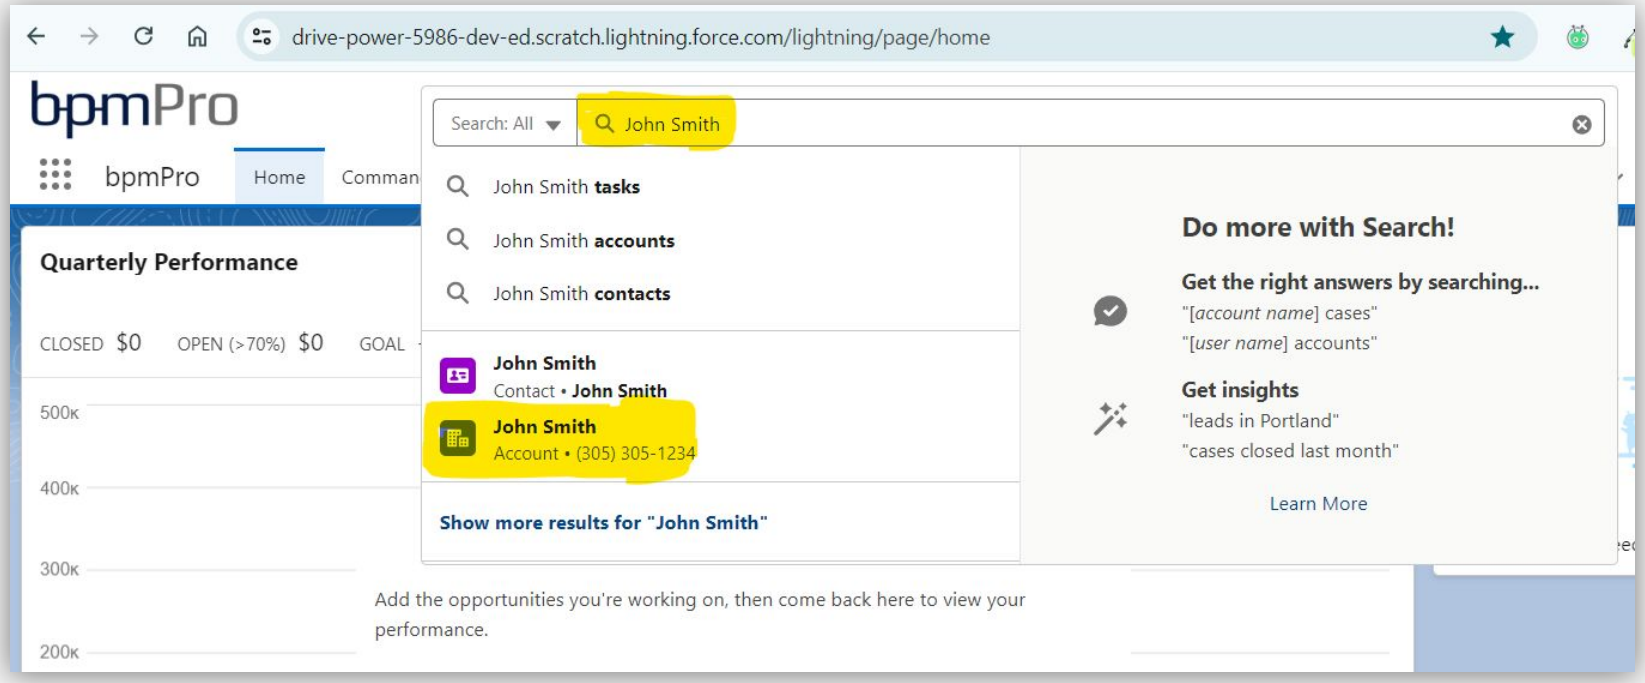


bpmPro

Create Contacts

There are several ways to create contacts.

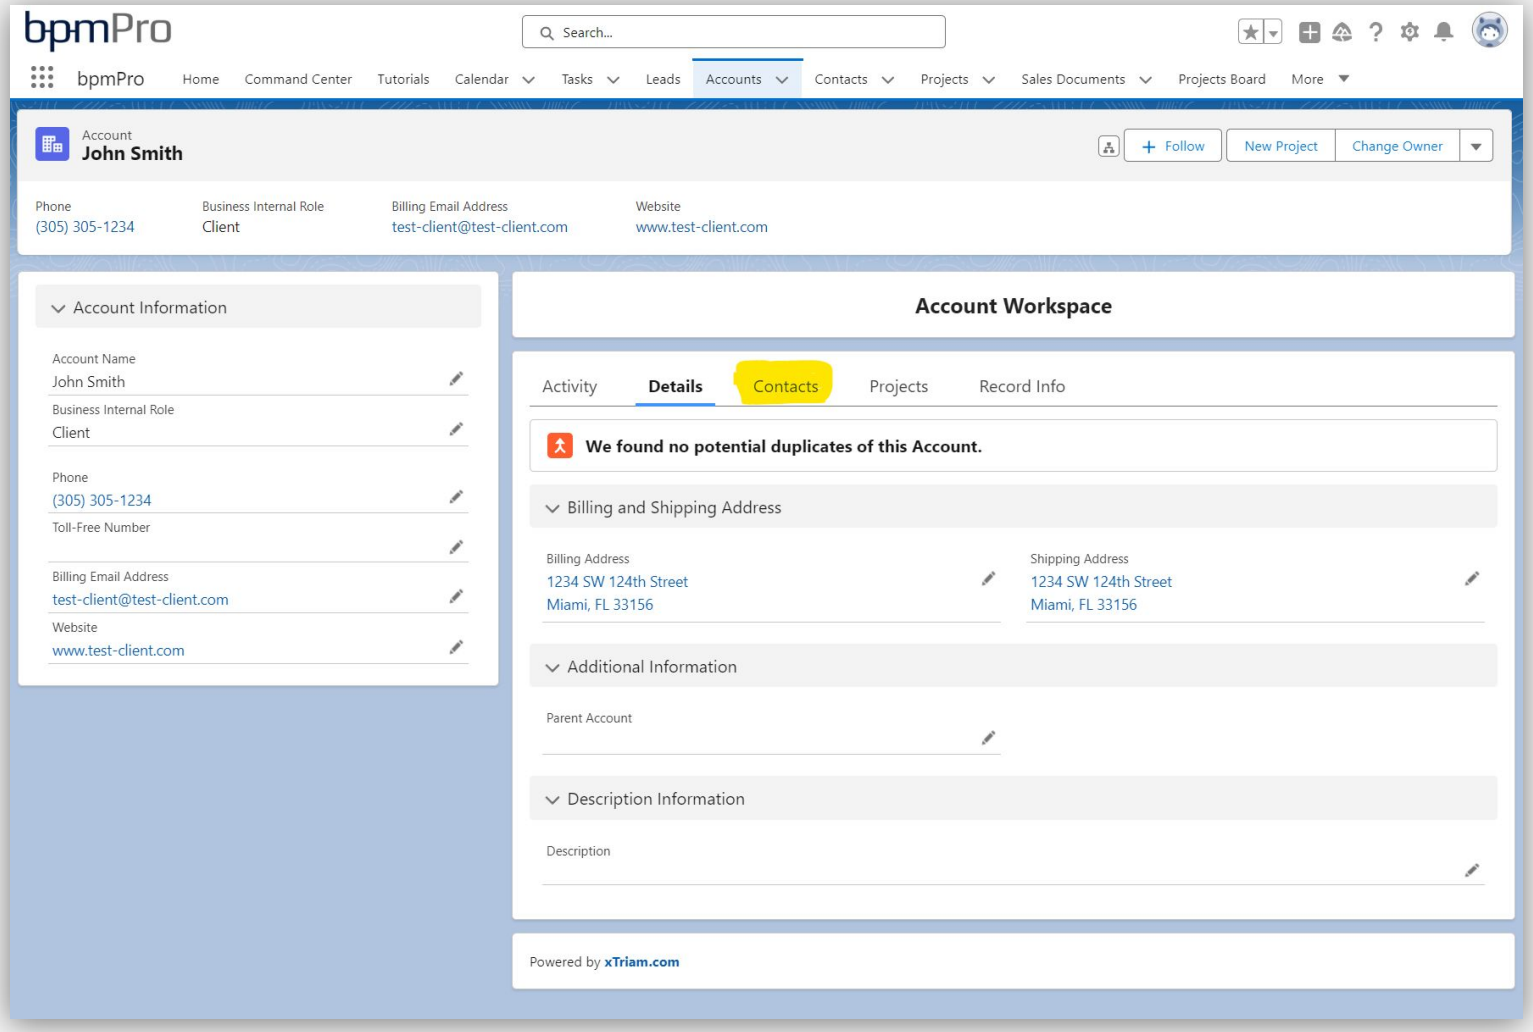
<u>**Approach #1**</u>: If the Account for the contact already exists, then you should find the Account by typing the account name in the global **Search** box:



Select the account name you are looking for to navigate to the account record where you will add the new contact.

Create Contacts

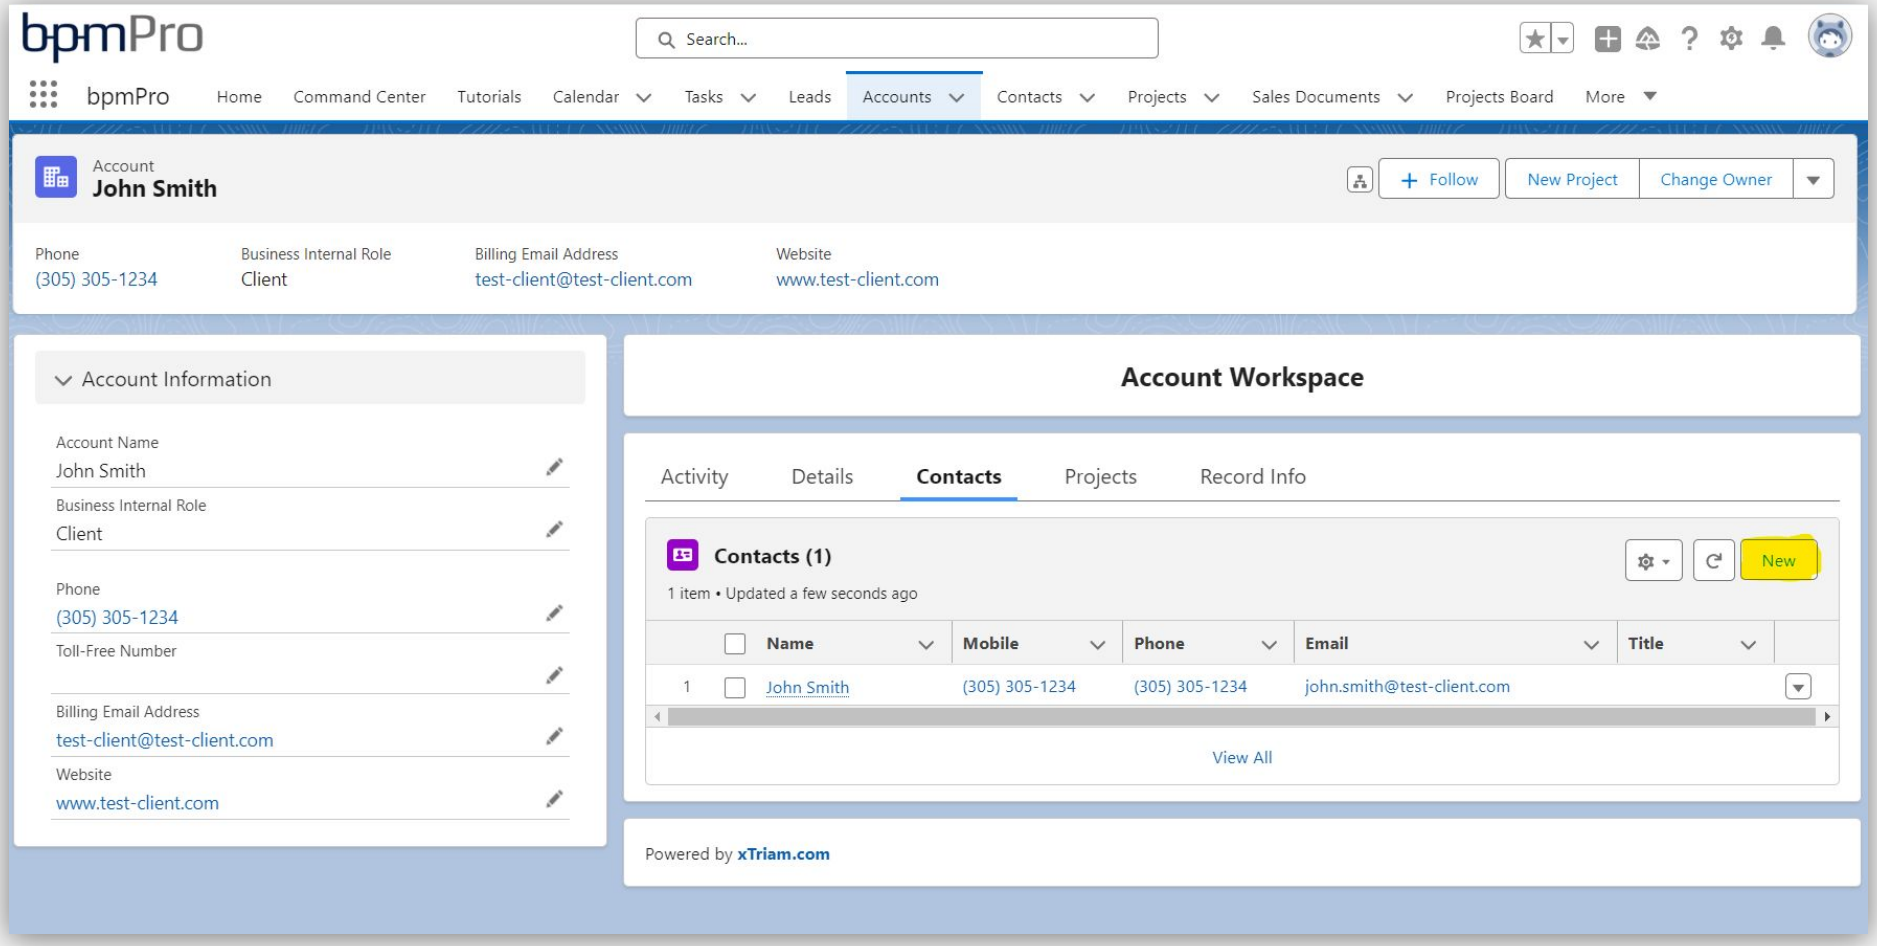
Once inside the Account record for John Smit, click on the Contacts tab.



bpmPro

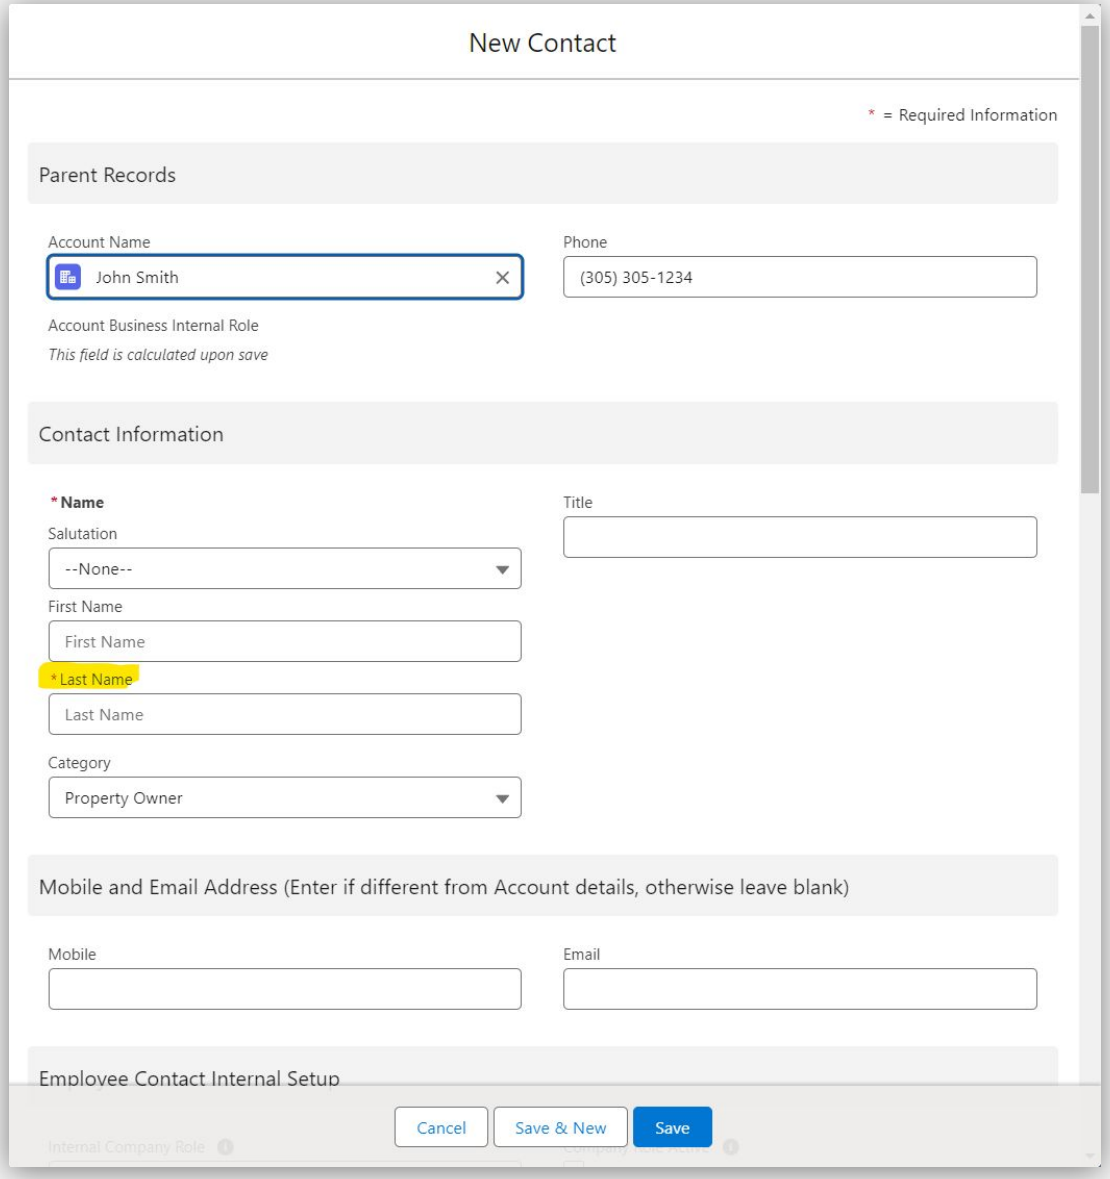
Create Contacts

Click on the **New** button.



Create Contacts

Fill out as much information as possible.



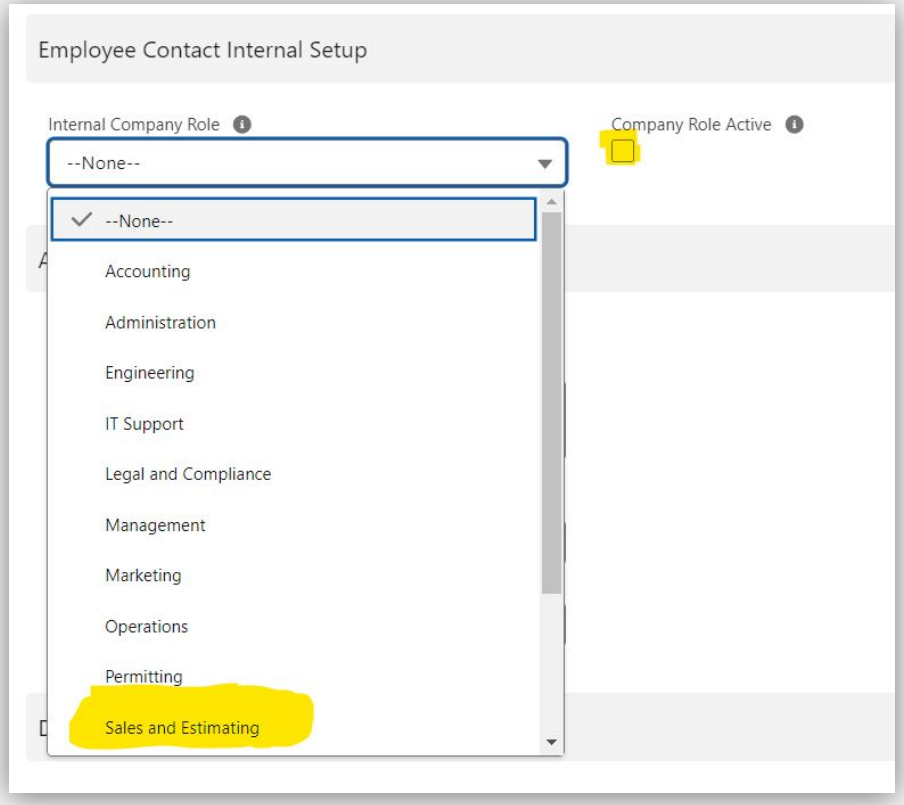
bpmPro

Create Contacts

Fill out as much information as possible.

Important:
For employee contacts, you must enter the **Internal Company Role** and make the **Company Role Active**.

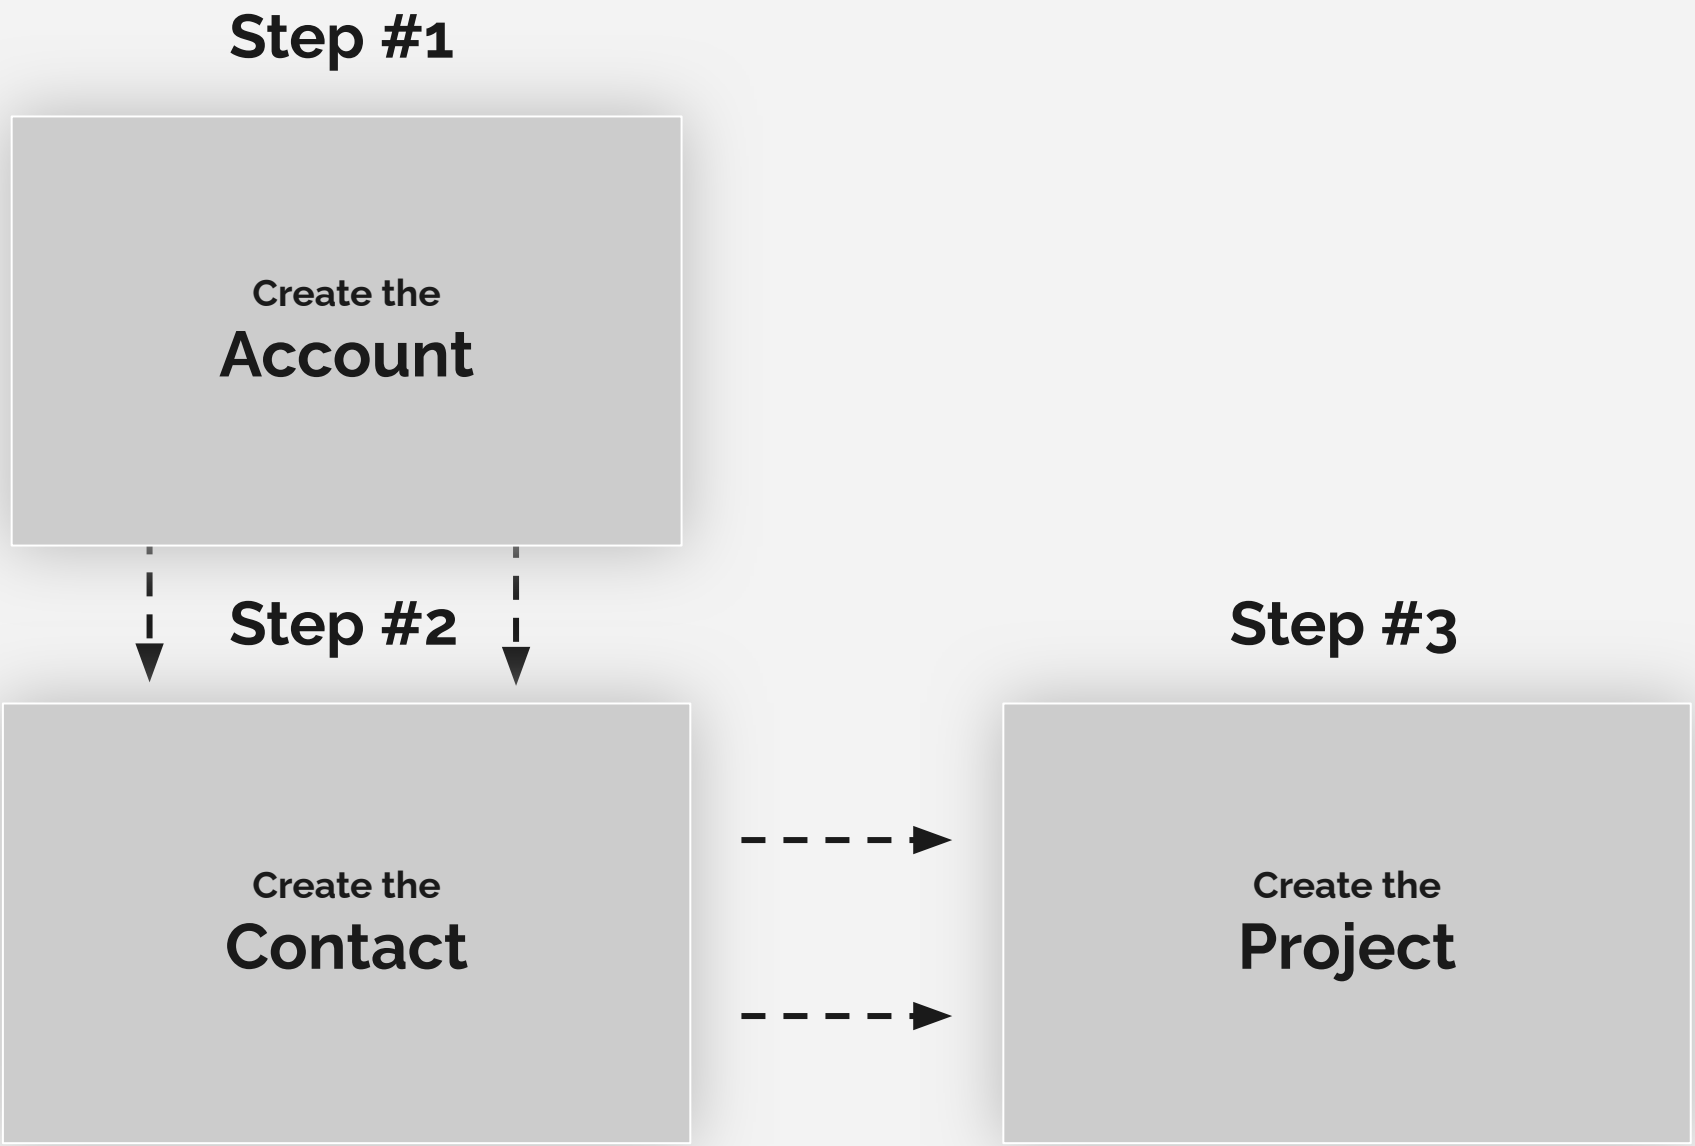
Internal Company Role
You must select a role for the employee contact you are creating. Also, make sure that you check off the Company Active Role box to make the employee active. This way, the employee will show up in the system as Sales Person, Project Manager and many other places in which you will need to select employees to Sales Documents, Projects, etc.



bpmPro

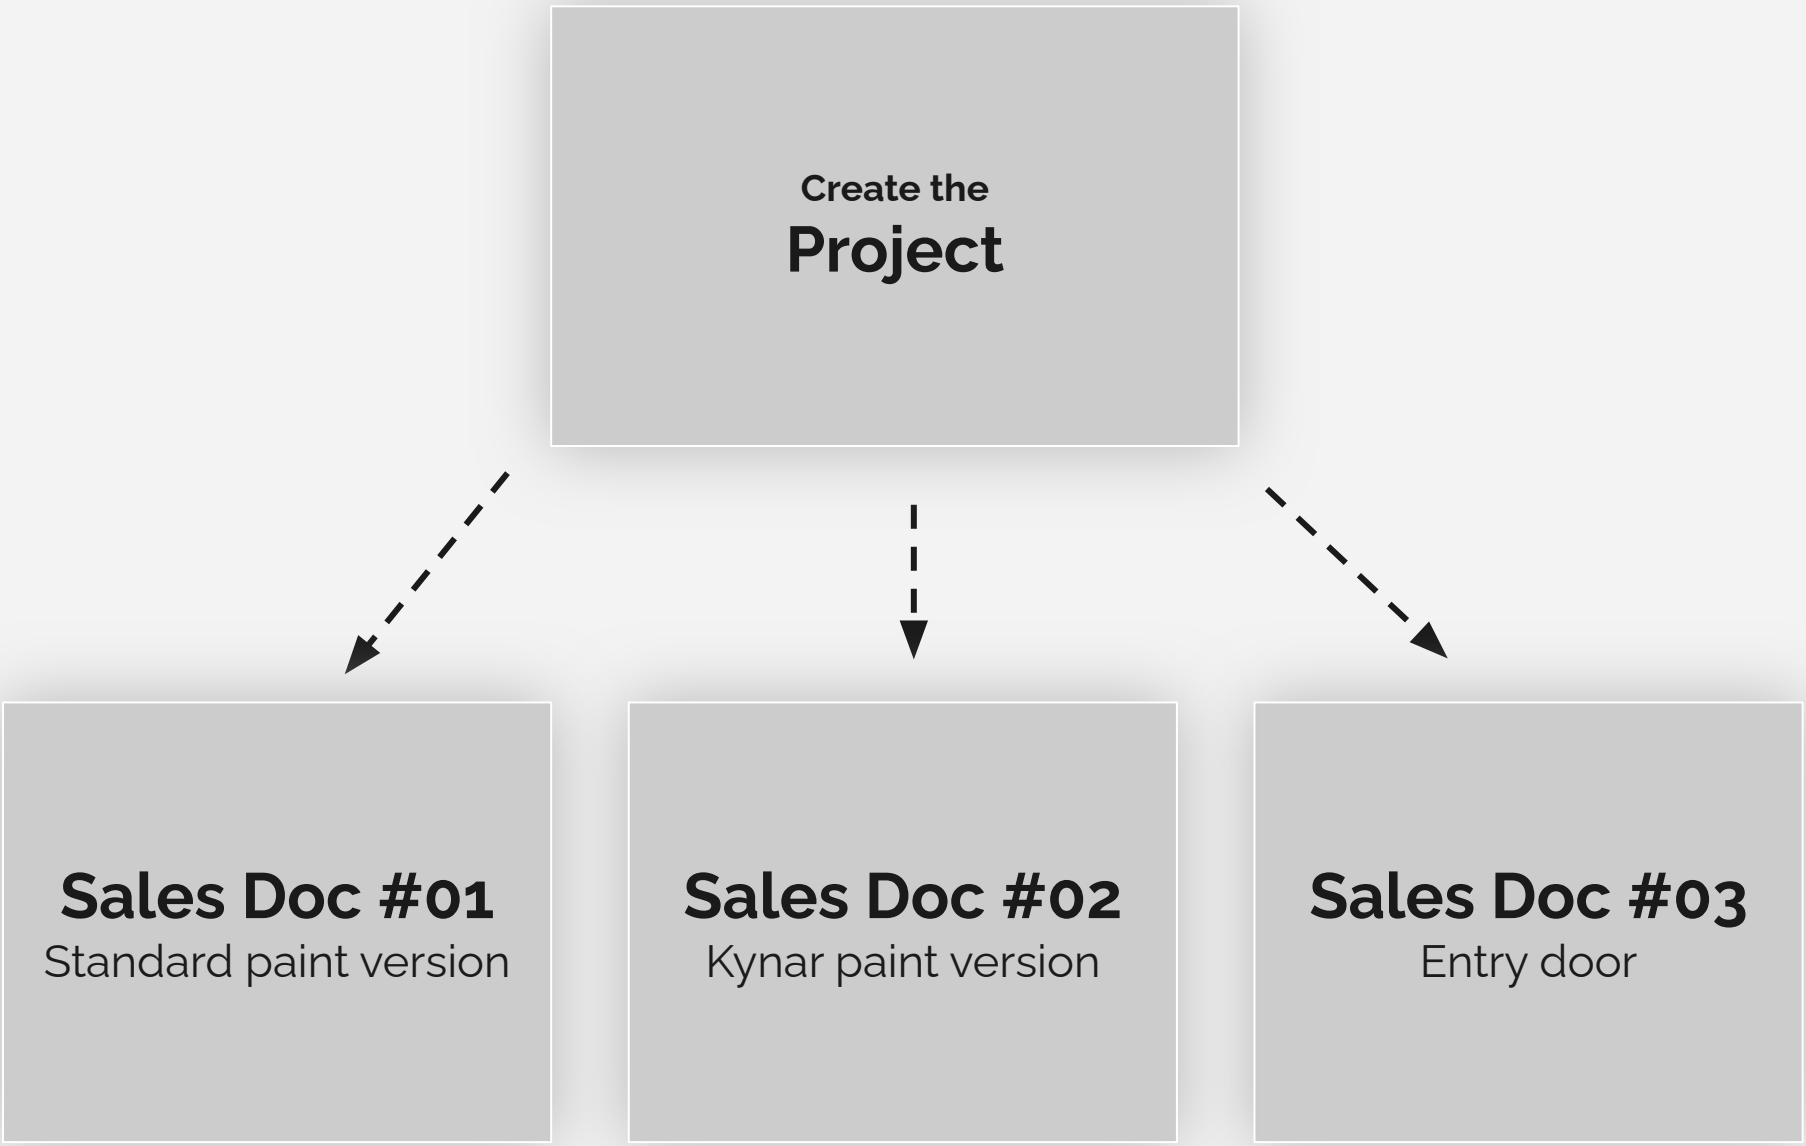
Entering a New Leads

Approach #1: You can follow these 3 steps to create Project Leads.



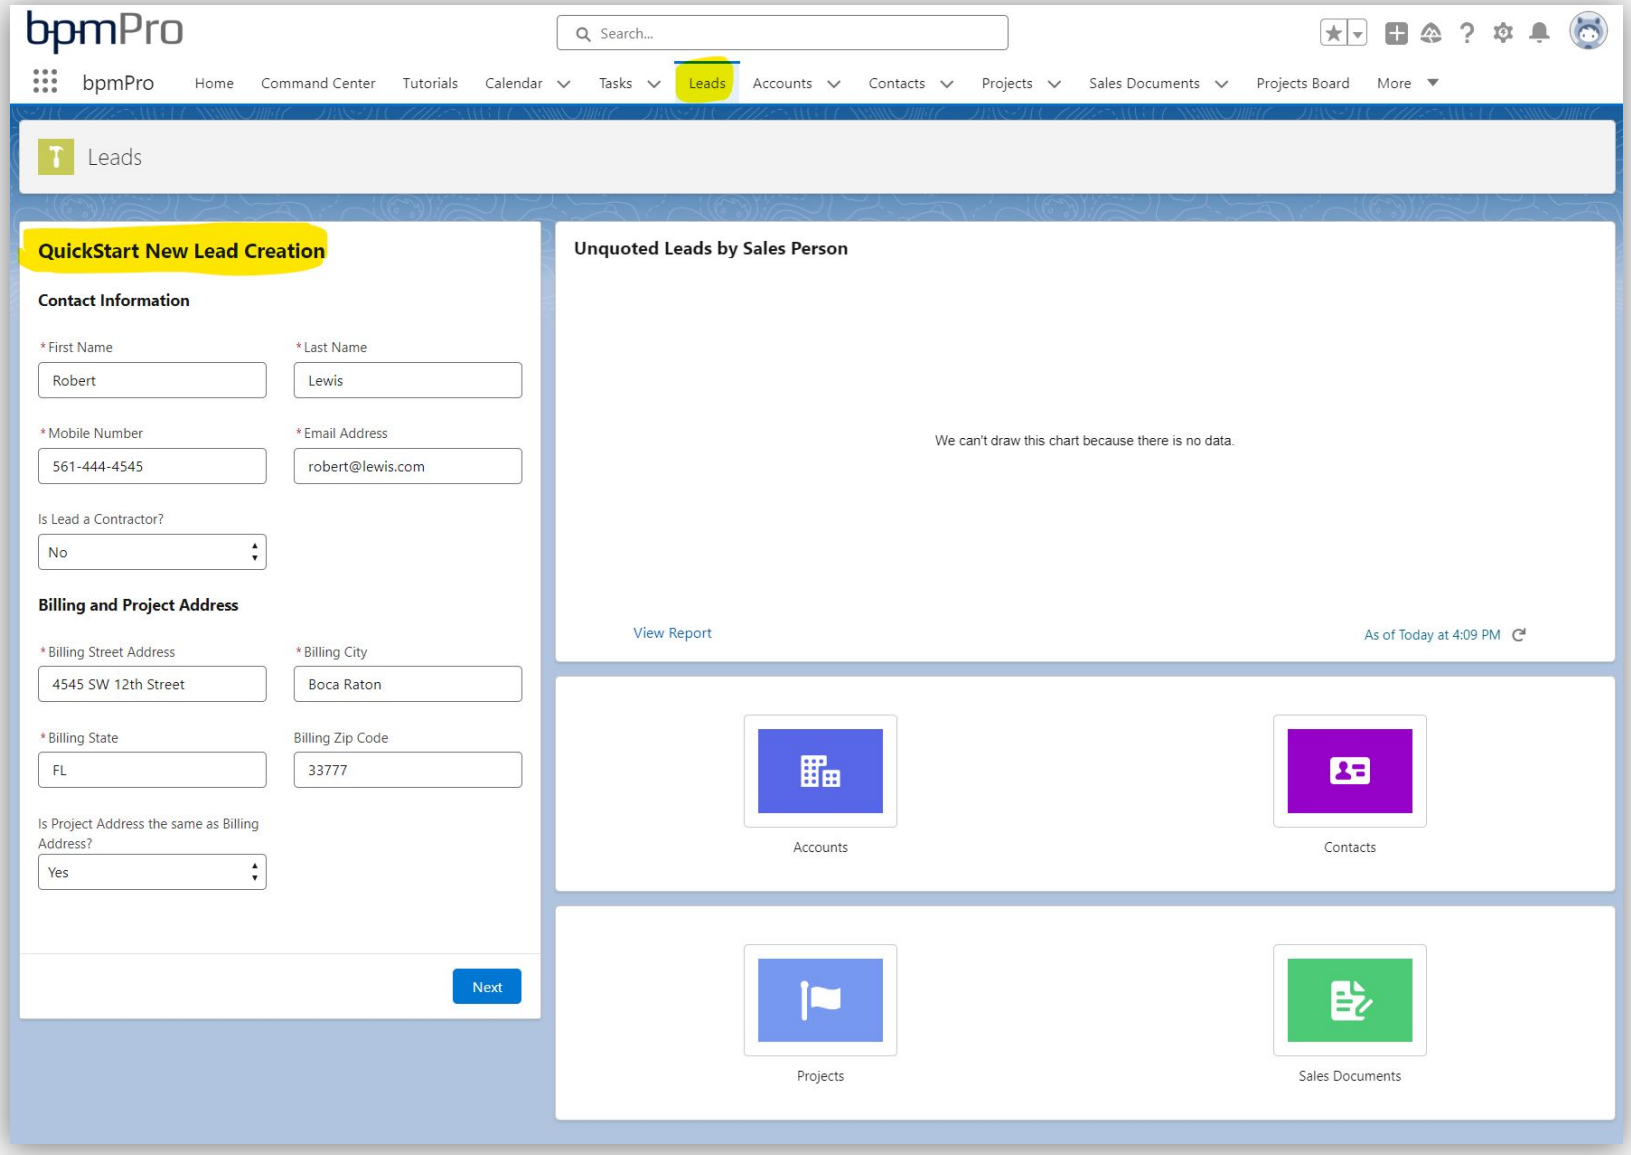
bpmPro

Creating Sales Documents



Entering a New Leads

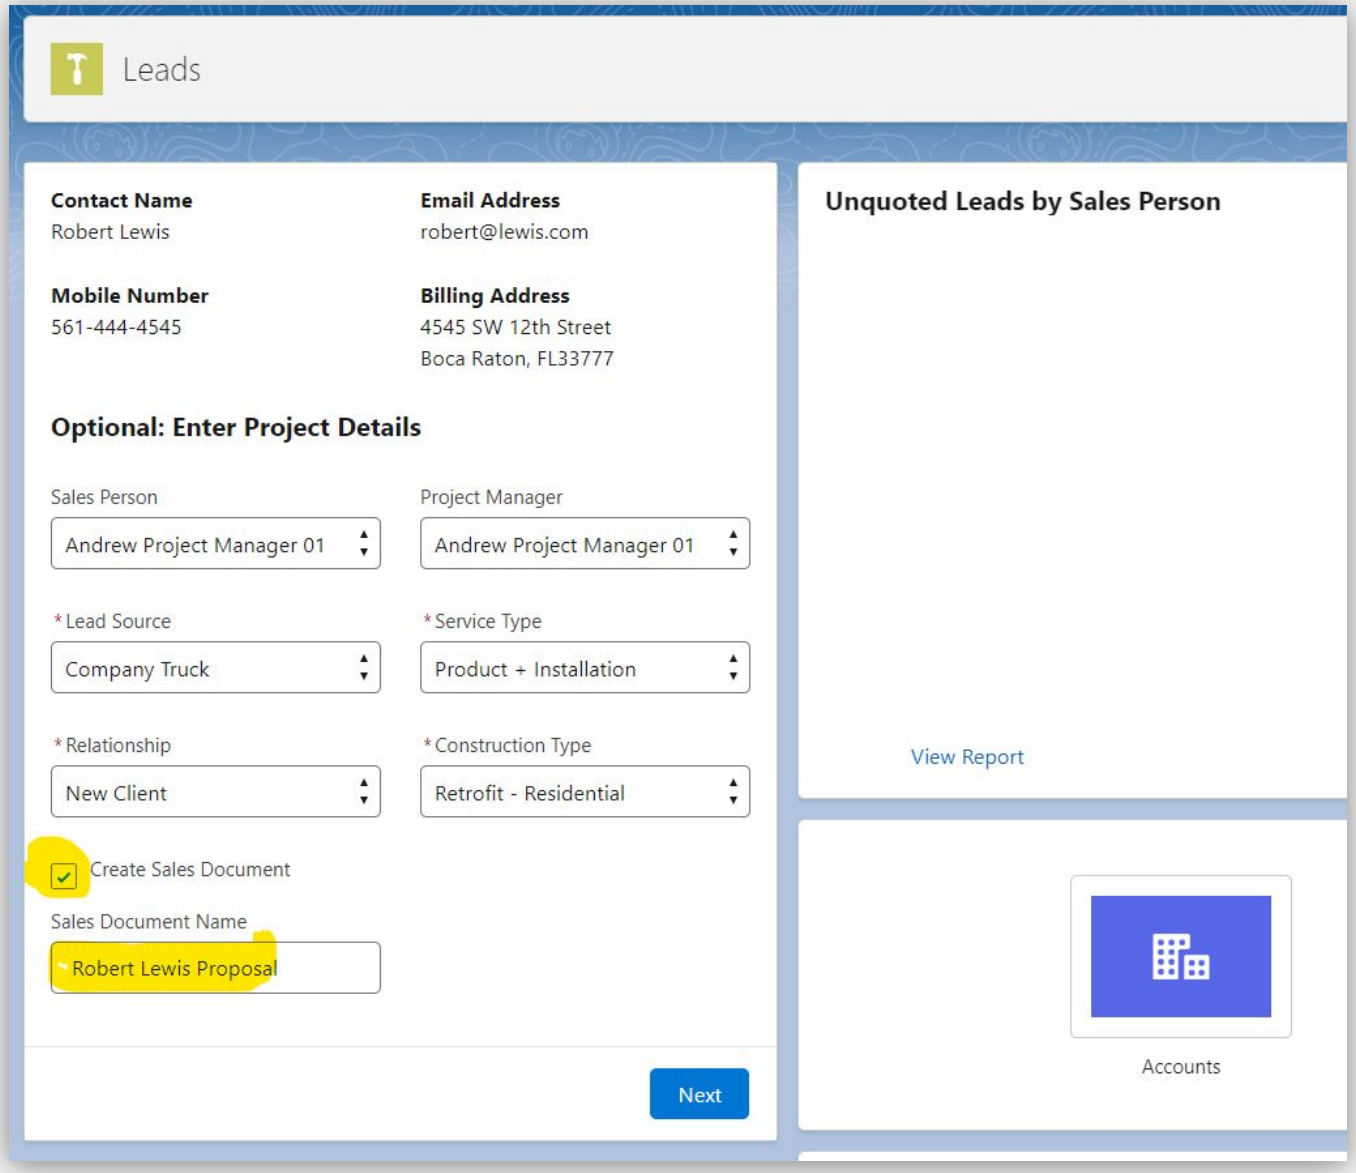
Approach #2: You can use the **QuickStart New Lead Creation** flow which you can find in the **Leads** tab.



bpmPro

Entering a New Leads

Approach #2: Make sure that you select the **Create Sales Document** checkbox if you want to create a Sales Document for this lead.



bpmPro

Entering a New Leads

Approach #2: After you finish the Flow interview, you access the recently created records by clicking on the **Projects** or **Sales Documents** list view icons shown in the screenshot below.
